# Colorwin Solvent Printer With 8 Konica 512i Heads

## ● Features

### Specialized Print Adsorption Platform

The control area of the vacuum adsorption platform ensures printing stability efficiently.

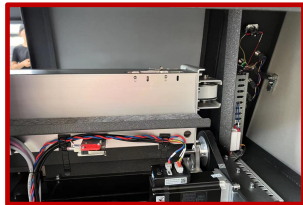

### High Performance Board

High-end board system with good stability and low failure rate.

### Efficient Emergency Stop Switch

Quickly turn off power in emergency situations to ensure work safety.

### Industrial Grade Motor

High-quality industrial motor drive system ensures the accuracy and stability of equipment.

### Humanized Key Panel

Easy to understand operation button panel, convenient to use.

- ★ Integrated frame, industrial design, it is easy to install environmental facility
- ★ It is adopted imported non-noisy linear rail, Italian belt.
- ★ Choosing high accuracy cross beam of aluminum alloy.
- ★ With infrared heating system and adjustable fans.

## ● Specification

Printing Mode		One Group	Two Group	Three Group
Konica1024i	360X360dpi(1pass)	250m <sup>2</sup> /h	500m <sup>2</sup> /h	N/A
	360X720dpi(2pass)	150m <sup>2</sup> /h	260m <sup>2</sup> /h	N/A
